**P**atanjali Gurukulam', making new revolution in the field of education to regain the lost glory of vedic culture, was inaugurated by RSS chief Sri Mohan Bhagwat who is considered to be the patron of vedic sanatan Hindu religion, culture, civilisation, refinement and its sensations. The gurukulam situated at the base of mountains and on the bank of river is filled with natural beauty. It reminds us the ancient gurukul. On the occasion, Sri Bhagwat said that the gurukul itself is the best word. In the gurukul, the guru shapes his disciples by considering them as his kulvahak and initiates into diksha to make them human, he added. In gurukul, the guru teaches the disciples through behaviour apart from books. The best experiments must be run continuously in the gurukul, he said adding that the patanjali gurukulam students will set up gurukul in the villages. This gurukul is the gangotri of education

from where an uninterrupted source of energy will come out, he opined. Sri Mohan Bhagwat said that the knowledge is infinitive, it can't be evaluated only by counting subjects. Today, the students are imparted with the knowledge of Science and Technology, Physics, Chemistry. But it's not an entire knowledge. The knowledge must instil refinement in the human being. There is a lack of institutions providing moral, fundamental and cultural knowledge in the country. Sri Bhagwat said that the soul gets human body after several births. Don't lose it. The human being can become the best through his good duty. Those who shower love on the entire world are the great human being. India will provide this vedic knowledge to the entire world. Lord Rama had the great soul that we call him the god. Rama followed no cult and belief. Everyone calls him an ideal person. On the occasion, Pujya Yogarshi Swami Ramdev Jee Maharaj said that he was suspicious that what would happen to the glorious culture of India and vedic knowledge

tradition of sages, but it seemed that these small rishikumar would help India make world guru by 2050. By adopting culture of sages, these rishikumar will certainly bring renaissance of glorious history of the Indian culture. Patanjali yogapeeth is the torchbearer of vedic culture and carrier of commitment and ideals of their ancestors. He said that patanjali gurukulam is the soul of patanjali yogapeeth. Over Rama temple, Swami Jee Maharaj said that the Lord Rama is the culture and ideal of this country. Rama is the ancestor of all the cults in India. Rama is the nature of this country and he lives in the heart of every Indian.

In the programme, Junapeethadhishwar, Acharya Mahamandaleshwar Swami Avdheshanand Giri Jee Maharaj said that the intellectual human being is the best in the era of technology. The experiments conducted by the patanjali in the fields of agriculture, indigenous, yoga, ayurveda and education are divine. It's the proof of presence of the ultimate god. The indigenous products are available in every household in the country. The sense of indigenous played important role in freedom struggle. Post-independence, the people had been holding discussion over indigenous things in the country for many years, but it was patanjali which presented indigenous as the best alternative. I see the future of India in patanjali gurukulam where the students will build new India. Highlighting the importance of Sanskrit, he said that it's popular as an effective subject in the entire world. Several countries like Germany, Netherlands, Uruguay have made it mandatory for the students to study Sanskrit as a subject. I am elated over establishment of patanjali gurukulam so that no western civilisation will make us slave. On the occasion, Shradheya Acharya Balkrishna Jee Maharaj said that it's not only inauguration of an institution but also a beginning of renaissance of culture. Patanjali yogapeeth is making revolution in many fields like yoga, ayurveda, nephrology, research, agriculture, indigenous revolution and education revolution. Vedic gurukulam, acharyakulam, patanjali university, ayurveda college and patanjali gurukulam are our prominent steps of our revolution. Acharya Jee said that Sri Mohan Bhagwat Jee is making effort for cementing unity, diversity, culture and values of India. On the occasion, Pujya Gurudev Acharya Pardyuman Jee Maharaj said that we must instil

beauty of refinement apart from prosperity in the life. The ultimate goal of life must be the peace. We must consider service to human being as religion by experiencing total in our life. He said that we all are fortunate enough that we are participating in the inauguration of patanjali gurukulam meant for building human being.

On the occasion, the patanjali gurukulam students chanted shloka and ashtadhyayi of Geeta and Chanakya Neeti. They practised various asana of yoga. Chief central in charge Sadhvi Devpriya Jee, Dr Jaideep Arya Jee, Sri Rakesh Kumar Jee, chief general manager Sri Lalit Mohan Jee, local MLAs, village heads and thousands of villagers were present in the programme.

RSS Chief was on two-day visit to patanjali yogapeeth. During which, he inspected various activities being launched by patanjali. Sri Bhagwat visited patanjali food and herbal park, patanjali research institute, patanjali herbal garden, patanjali cow shed and showered praise on the welfare works being done by patanjali. Sri Bhagwat planted a sapling in patanjali herbal garden. <<
